

SECURITY CHIMNEYS SECURE STACK A POSITIVE PRESSURE SYSTEM

Secure Stack_® CIX/CAX

The Secure Stack CIX and CAX venting systems are designed to offer the ultimate in installation convenience and versatility for a variety of applications. Certified for commercial chimney, grease duct (CIX only) and diesel exhaust applications. Thick-gauge material for the inner pipe and coupling provides a strong and rigid assembly. Self-centering flue design significantly simplifies and accelerates the installation process. Coupling configuration (patent pending) requires only one locking band and the use of a regular, less expensive, high-temperature silicone sealant.

Features	Benefits
Self-centering	• Components line up easily and quickly • Fast and efficient installations
Joint sealing on outside casing only (patent pending)	 Lower temperature at locking or sealing location Less expensive high-temperature silicone sealant can be used Awkward inner band eliminated Easier to install
Thinner-gauge material on outside casing	Lower weight Easier to install
